🎓 EDUCATION

Soochow University, Suzhou, China Sept. 2023 – Present

B.S. Candidate in Data Science and Big Data Technology, expected June 2027

GPA: 3.9/4.0 **Rank:** 1/82 **CET-6:** 558 **Political Status:** Probationary CPC Member

👨‍🔬 RESEARCH EXPERIENCE

Wuhan Institute of Artificial Intelligence, Wuhan, China July 2025 – Apr. 2026

Research Intern Scientific Research Internship

- ***AsymTalker: Identity-Consistent Long-Term Talking Head Generation via Asymmetric Distillation***

NeurIPS 2026 Under Review

Yuxin Lu, Qian Qiao, Jiayang Sun, Guibo Zhu, Min Cao

- Proposed Temporal Reference Encoding, mitigating temporal-spatial misalignment by replicating the identity image over time and encoding it with a pre-trained 3D-VAE.
- Developed Asymmetric Knowledge Distillation to reduce long-term identity drift by decoupling ground-truth supervision from self-generated conditioning.
- Achieved state-of-the-art results on HDTF and VFHQ, enabling high-fidelity, identity-consistent synthesis for 600-second videos at 66 FPS.

Vision-Language Pedestrian Image-Text Annotation System May 2024 – May 2026

Principal Investigator National Undergraduate Innovation and Entrepreneurship Training Program

- ***An Empirical Study of Validating Synthetic Data for Text-Based Person Retrieval*** 🔗 Code

IEEE TIFS (CCF-A, SCI Q1 Journal) Accept

Min Cao, **Yuxin Lu**, Ziyin Zeng, Mang Ye, Dong Yi, Jinqiao Wang (advisor as first author)

- Constructed a unified TBPR data synthesis pipeline that remains functional without real person data.
- Evaluated synthetic data across diverse scenarios, showing its utility as both a standalone replacement and an augmentation to real data.

- **Dataset Construction Method for Text-Based Person Retrieval** **Patent Granted**

Yuxin Lu, Ziyin Zeng, Min Cao

- **Pedestrian Caption Generation via Multi-Model Local Description Integration** **Patent Granted**

Lian Liu, Qiancheng Shao, **Yuxin Lu**, Yu Wu, Min Cao

- **Vision-Based Pedestrian Image-Text Annotation System; Intelligent Pedestrian Image Text Annotation Software** **Software Copyright Registered**

Yuxin Lu

💖 HONORS AND AWARDS

1st Prize, Chinese Mathematics Competition 2024

3rd Prize, Large-Scale SAR Image Multi-Class Oriented Object Detection Challenge 2025

Soochow University Outstanding Academic Scholarship; First Prize Innovation and Entrepreneurship Scholarship; Outstanding Communist Youth League Member 2024

⚙️ SKILLS

- Programming: Python, C++, JavaScript, Vue, R, MATLAB, MySQL.
- Deep Learning and Systems: PyTorch, A100 GPU cluster experience, Linux.
- Athletics: Completed the Soochow University 10 km campus marathon in under 55 minutes.
